

## **Assignment 1**

**Name: Ssebadduka Cloves**

## **Home Page (index.html)**

**Description:**

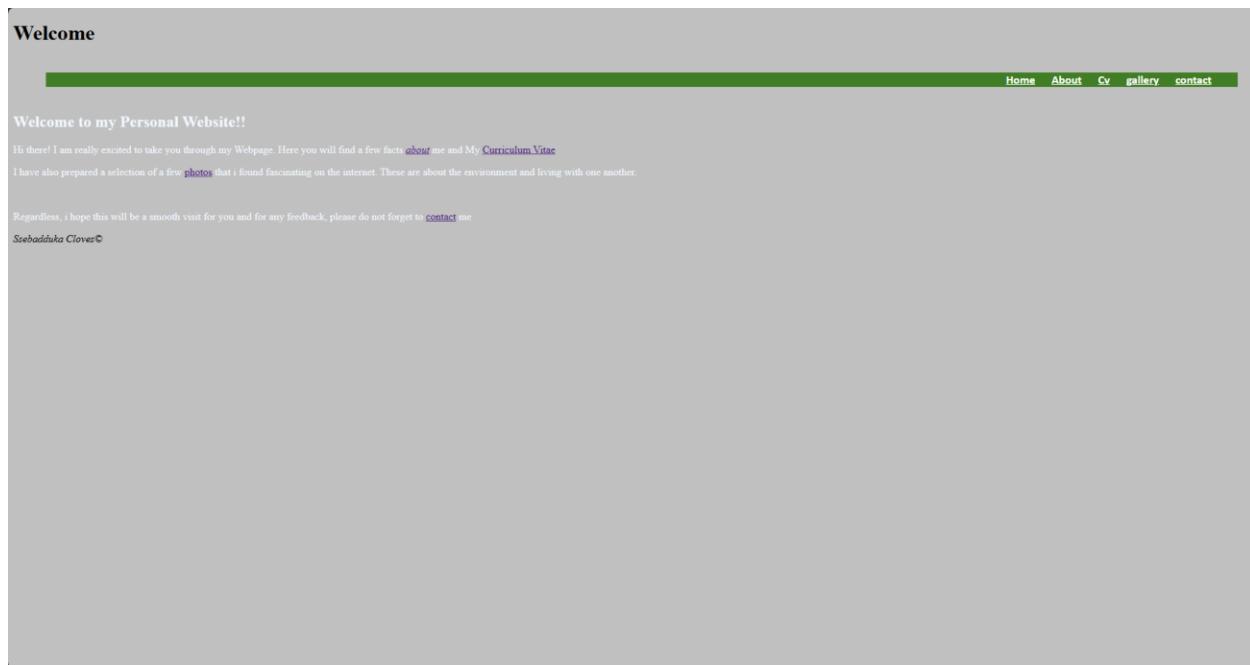

This is my Welcome page and this is how it appears on screen.

It includes;

A welcoming introduction and profile image.

- Short summary paragraph with links to other pages (About, CV, Gallery, Contact).
- Simple and clean layout
- Responsive design tested on multiple browsers.
- Footer with copyright information.

Here is what the page looks like on my computer.

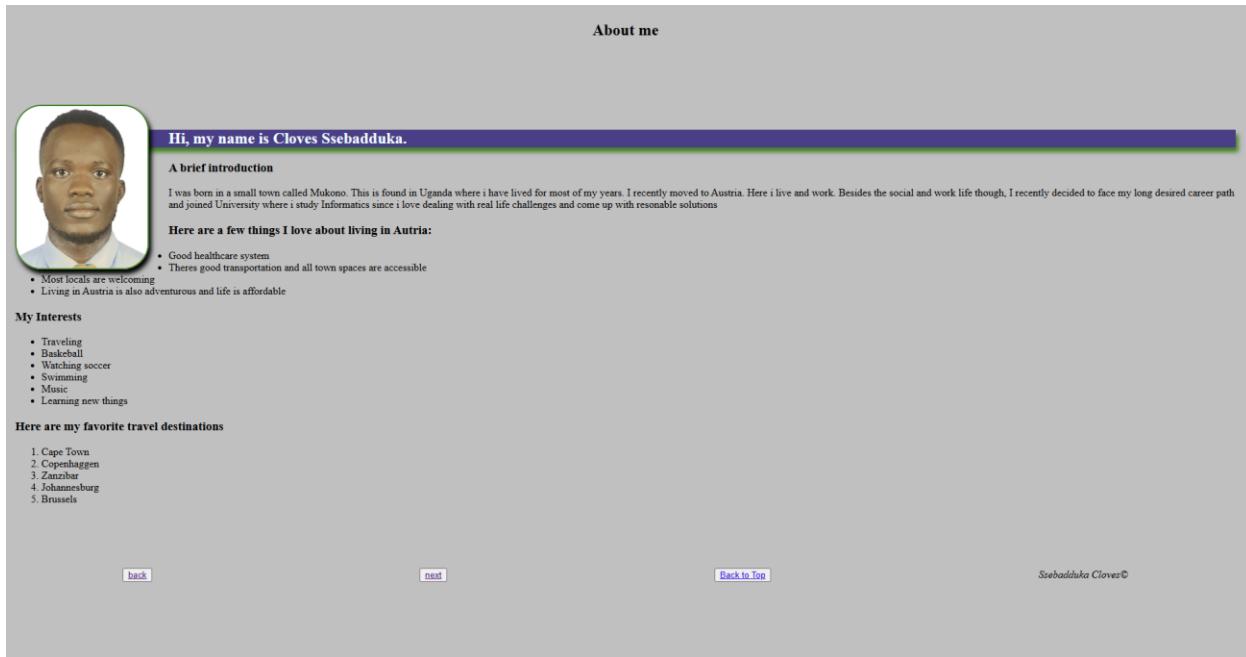

# About me (about.html)

Description:

- This page contains my personal information, a profile photo and links to other pages.

It contains:

- Informal section describing my background, hobbies, and interests.
- Includes one photo of me.
- Lists hobbies and fun facts in bullet form.
- Balanced mix of text and visuals for a friendly feel.
- Here is what the page looks like on my computer.

The screenshot shows a web page titled "About me". At the top, there is a circular profile picture of a young man. Below the picture, the text "Hi, my name is Cloves Ssebadduka." is displayed. A blue horizontal bar follows, containing the text "A brief introduction". Under this bar, a paragraph describes the author's background: he was born in Uganda and moved to Austria, where he studies Informatics. The next section, "My Interests", lists activities like Traveling, Basketball, Watching soccer, Swimming, Music, and Learning new things. The final section, "Here are my favorite travel destinations", lists five cities: Cape Town, Copenhagen, Zanzibar, Johannesburg, and Brussels. At the bottom of the page, there are navigation links for "back", "next", and "Back to Top", along with a copyright notice "Ssebadduka Cloves©".

## Curriculum Vitae Page (cv.html)

This is my Cv. I got the CSS code for this design from a You Tube video, link

<https://youtu.be/hnjHCmaUVPg?si=KOTGWSwAb7rJhgum>

Displays education, skills, and experience in a clear layout.

Organized using headings, lists, and paragraphs.

Includes professional details like degree, programming skills, and other personal skills.

Designed for readability and professionalism.

Navigation and footer.

## Gallery Page (gallery.html)

Description:

- Contains at least 10 themed images that include nature and human behavior related images. I got most of them from pexels.com ang google.
- Images stored inside the /images folder.
- Uses a responsive CSS grid for layout.
- Each image includes a caption
- Minimalist, visually balanced design for easy browsing

Here is how the page looks like on my computer:

## Contact Page (contact.html)

Description:

- Simple, non-functional contact form built with HTML form elements.
- Includes fields for Name, Email, Message and links to other pages.
- Styled with simplicity and accessibility.
- Encourages visitors to reach out or provide feedback.
- Also provides a separate link to the welcome page.

Here is what the page looks like on my computer:

The screenshot shows a contact form titled "Contact". It includes fields for "First Name", "Other Names", "E-mail", and "Telephone Number". There is a "Message" field with placeholder text "Write your message" and a checkbox for "I agree to the terms and conditions". Below the checkbox is a "send" button. At the bottom of the form are links for "back", "Home", and "Back to Top". The footer contains the text "Ssebadduka Cloves©".
